This special fun edition of Diamond Comics is brought to you in collaboration with Dettol- Banega Swasth India initiative. This initiative is effectively taking the cleanliness campaign to every household. It especially focuses on the cleanliness and health of children thereby laying the foundation for a clean and prosperous India.

The immensely popular characters of Diamond Comics, with Dettol: Banega Swasth India, have got a bag full of new and fun stories for you.

So that you all stay healthy, stay wealthy!
Hygiene at home

The End

What a scary movie it was!

Billu bhaiya, I'm scared to go home. You are brave! Your home is just around the corner. In case you see a ghost, tell him I said 'hello'.

Mummy !!!!!!!
At home

You've come! Should I serve the dinner?

I've eaten at Billu bhaiya's home! I'll just go to sleep now.

At least wash your hands. You know, Pinki

Yes. Yes, I know... before eating, after coming home from outside

after visiting the toilet, after coughing or sneezing, after touching animals, whenever our hands are dirty,
WE MUST WASH THEM WITH SOAP.

I already know all this, Mummy! Will wash my hands surely.
When germs will come to you as ghosts, then you'll know.

Ghosts! Brrr brrr!

Still, Pinki doesn't wash her hands and dozes off.

In her sleep, she feels a spear poking at her cheeks.

As soon as the tip of the spear touches her nostril, she sneezes and gets scared.

Aaaaachoooooool!!
G..ghost!!!!

Not a ghost. I'm Germonster, King of the Germ Land

And before you ask more, let me take you to...

The Germ Land
Narration: Surprise! She's not the only one there.

W... what??

Billu Bhaiya...

Motu-Patlu uncle, you're here too?

Rajan and Iqbal bhaiya, you too! What's going on?
These people, like you, don't take the RULES of HYGIENE very seriously.

Your unhygienic habits give us immense power.

Wow! Our dinner looks yummy today!

I told you to wash your hands. Now all these germs are after our lives.

Our kingdom prospers because of unhygienic people like you. My soldiers, ATTACK!

Run!!

Help! Help!
Stop! You can’t escape.

Yay! Sabu and Shaktiman are here to help us. They will save us from the germ-army.

Save me please! I don’t want to die a bachelor.

Great! We have more people to prey on. Soldiers, attack.

Although we’re strong enough to kill these tiny germs...

But our powers are less potent in the Germ Land. We must use a super power.
What is that SUPER POWER, Sabu?

DETTOL SUPER-POWER

Shaktiman and Sabu start to throw Dettol bottles towards Pinki, Billu, Motu-Patlu and Rajan Iqbal:

Take this!

Hand Wash! Hand Sanitizer!

Let’s quickly clean our hands.

Clean hands will kill these germs.
As soon as they clean their hands with Dettol hand wash and sanitizer...

Oh yes, the superpower of clean hands will protect our hands from germs.

Now these germs won’t be able to escape.

Dear Germs,
GAME OVER

What kind of disinfectant is this? It’s affecting our entire family of 100 kinds of germs. Help! Help!

Very soon, all the germs ran away from the Germ Land

Remember, if we clean our hands with soap and water, germs like you will never come near.

Thanks a lot Shaktimaan and Sabu. It has been my deepest desire to shake hands with you...

Wait...
Let’s clean our hands first.

But you are a Superhero! Why do you need to wash your hands?

Because only SUPERHEROES WASH THEIR HANDS. The real superhero is the one who maintains hygiene.

Remember friends, one who’s clean, is healthy.

Everyone else: We promise to be serious about washing our hands and maintaining hygiene.

Bye Shaktiman, Bye Sabu!

Bye! What are you blabbering? It’s 7 already. Want to miss school or what?
Mummy, I'll wash my hands right away... with soap and water... for 20 seconds.

Oh! It was a dream.

After coughing or sneezing, after touching animals, whenever my hands are dirty...

Now get ready for the school. Breakfast is ready.

I'll wash my hands.
Hygiene in the School

Kids, trees give us...

Tinku, don’t you have a handkerchief or a tissue paper?

Sorry Mam! I forgot.

Aaacc hooooo!!

Go and wash your hands with soap and water.

As soon as Tinku steps out...

??!!!!?? Help!! Help!!

??!!!!?? Help!! Help!!
The washroom is so dirty. Germs are all around. The kids are distraught.

Ah! Germs all around. It's so dirty!

Principal comes to the classroom.

What's this noise?

The germs have raided our school. Everywhere there's filth and germs. Kids are falling sick. We must do something.

Principal calls Chacha Chaudhary.

Chachaji, you must come to school immediately.

Chachaji arrives.

What's the matter, Mr. Principal?

Ah! That's serious indeed. I must inspect.

It's very serious. The germs have made our lives hell.
Where's the Hygiene Corner of your school?

Hygiene corner???

If the kids are unaware about hygiene, the germs will surely attack.

Oh, this school has an entire army of germs.

The corner that gives the message of Hygiene and cleanliness. Here, disinfectants like hand wash and hand sanitizer are kept.

Run from here. Or else you'll be killed.
Your end is near.

Not at all. We multiply at unhygienic places.

What do we do now, Chachaji?

Don't worry. I'll set things right with just a phone call.

Please come here, you two.

In few minutes...

You called us, Chachaji?

There's an army of germs here. You know what you have to do.

Yes, Shaktimaan and Faulaadi Singh. The school needs you two.

We are ready in our safety kits.
Shaktiman and Fauladi Singh start the cleanliness mission. They make every kid clean their hands with Dettol Hand sanitizers and hand wash.

Ahhh! What's happening? The cleanliness is making us powerless.

Run and save your lives. Germonster has never seen a defeat this big.

They've started washing and sanitizing their hands. Now we all die!
Thank you, you three, for saving us. But what if the germ-army raids again?

They won’t. Because we’ve set up a Hygiene Corner here.

And it will remind you of maintaining hygiene. Kids, pledge that you will always flush after using the toilet.

From time to time, keep washing hands with soap & water, and maintain hygiene at school.

Kids, this Hygiene Corner will help you stay clean and healthy.
Wash your hands with soap and water to ward off the germs. Also, importantly wash hands correctly.

There’s a hand-washing technique that you must know.

Wet your hands

Apply liquid hand wash

Rub it on your hands and between your fingers

Rub it on the back of your hands too
Scrape your palms with under the nails

Don't forget the back of your fingers and thumbs

Rinse with clean water

Dry with a clean towel or a paper towel

Wash your hands for 20 seconds to 40 seconds
Kids,
if you are unwell, stay at home. Wash your hands correctly from time to time. Cover your mouth with a handkerchief or a tissue when you sneeze or cough.

Throw used tissues in a bin and wash hands with soap and water afterwards. If there isn't a tissue available, sneeze or cough into the crook of your elbow.
Aaahhoo!

Great! Tinku learnt it finally.

Keep yourself clean, wear clean clothes, eat healthy and when you feel you've recovered completely, then come to school.

Yes. The germs will never dare again to touch us.

Never forget Chacha ji's words, kids. Remember, the real superhero is the one who stays clean. If you're clean, you're healthy.

Great, who told you all this?

You only In my dreams.
Hygiene in the neighbourhood

Our neighbourhood looks a little more alive today than usual.

After playing for some time

Pinki, Tinku, take some chocolate.

Give it fast.

Don't lecture us! There's no soap here either.

Take this hand sanitizer. I always keep one with me. You should too.

Think about it. If you don't clean your hands, you'll fall ill.

Rinku Tinku clean their hands...

Now let's hurry up! We have to go to the museum.
The day of 'Swachhata Diwas', the townspeople organized an excursion for the kids at the museum.

Yahooo

Inside the museum

Kids, we hope you're enjoying this trip. Come, let me show you the egg of the last dinosaur.

Because Chaturam Chestwale has parked his cart there.

Why there is so much of hustle-bustle at the museum gate?

After some time

Now we'll take a break for an hour. Don't forget to wash your hands before coming in or else...

Germonster will come...

It seems Motu Uncle too had the same dream...
Outside, at Chaturaam’s cart

Chaaturam’s chaat is to die for!

See, people are eating chaat without washing their hands.

Riku Tinku too!

It’s lunch time. I’m drooling too.

W..wait Billu bhaiya. Can’t you see the flies swarming over the food?

Are you here to eat the chaat too?

No! I was troubled by the buzzing of the flies. Wanted to know where it’s coming from.

Sabu arrives
Yes, Sabu. See how they are relishing the food contaminated by flies. They're throwing their plates all around too.

People don't understand. The flies sit on the open food and contaminate it. This causes illness.

When Rinku hears Sabu:

Oh Sabu! You've spoilt my taste with your talks.

Forget the taste, remember the health.
Before eating, clean your hands with soap or sanitizer.

Don’t throw the paper plates, wrappers or plastic bottles on the road or footpath. Throw them in a DUSTBIN!

Lack of hygiene gives birth to the germs that make us ill.

We must focus on hygiene and health and work towards it.

Let’s begin with Chaturaam’s cart only.

At Chaturaam’s cart:

Chaturaam uncle, your chaat is yummy, but it might hurt my tummy! Not just mine, all of ours.

That’s why you must follow the hygiene rules at your cart, because our neighbourhood’s health is dear to our heart.
Everyone from the neighbourhood comes together. Chacha ji joins.

So, all of you. Got it? If you neighbourhood is clean, you'll be healthy!

And remember, Dettol Superpower is always there to help us fight these germs that cause illness. We must help each other too.
THANK YOU FOR TRUSTING US, FOR 86 YEARS AND COUNTING.

And your trust keeps us going. It has been a true honour for us at Dettol to be your partner in protection.

In your homes, on those train rides, after the games, on those vacations, after those meals and especially when a new family member came along. Thank you for your faith in us, to keep you and your loved ones safe.

And it is this trust that urges us to make sure we never let our guard down. Ensuring that we evolve, with the latest in science; so that when the battle gets tough, our protection gets tougher.

Thank you for trusting us yesterday and today. We promise to uphold your trust in every tomorrow to come.
