**PRESS RELEASE**

**NDTV is undertaking an internal restructuring to focus on Television and Digital Content.**

As intimated earlier to the exchanges, NDTV Group had initiated a turnaround plan to bring down cost and improve profitability. A part of this plan was implemented in the last quarter and included our much-noted move to new technologies including to mobile journalism. Our reporters across the Country are now using mobile phones for the fastest and most efficient delivery of breaking news.

The strategy we are adopting calls for a far leaner operation which will feed only our core business: our English and Hindi news channels, and NDTV Convergence and its digital teams that run our news and other apps and websites.

This means minimizing all ancillary businesses that NDTV had expanded into over the last few years. Given our reprioritization, our workforce has to be altered too – over the next month, we are considering reduction of workforce upto 25%. We thank these departing employees for their contribution and hard work and wish them the very best.
